Community Camera Registration Program

The Shrewsbury Police Department is compiling a list of residential and business security cameras. Video surveillance is a great way to solve crime and assist in convicting suspects.

How Does it Work?

The Community Camera Registration Program allows residents and business owners to register locations and capabilities of their security camera systems with the Shrewsbury Police Department. Using this information, when a crime occurs, the Shrewsbury Police Department will know the locations of nearby video cameras and be able to collect video evidence and follow up on leads. This is a 100% voluntary program and your registration information is kept confidential. At no time are you under obligation to turn over your footage, nor will any of your cameras be monitored and/or accessed by anyone other than yourself. You can withdraw from the program at any time by contacting the Shrewsbury Police Department.

What are the Benefits of Registering your Camera?

Because they are caught in the act of committing the crime, video surveillance is one of the best methods to catch suspects and convict them. As crimes occur nearby, many residents and business owners are unaware that their camera systems may have captured information that could help solve a crime. Likewise, police are not always aware of who may have potentially vital video evidence. By registering your camera, officers can quickly identify nearby cameras that may have captured criminal activity. After registering your camera, you will only be contacted by the Shrewsbury Police Department if there is a criminal incident in the vicinity of your security camera and police personnel believe viewing your video footage will assist in the investigation.
